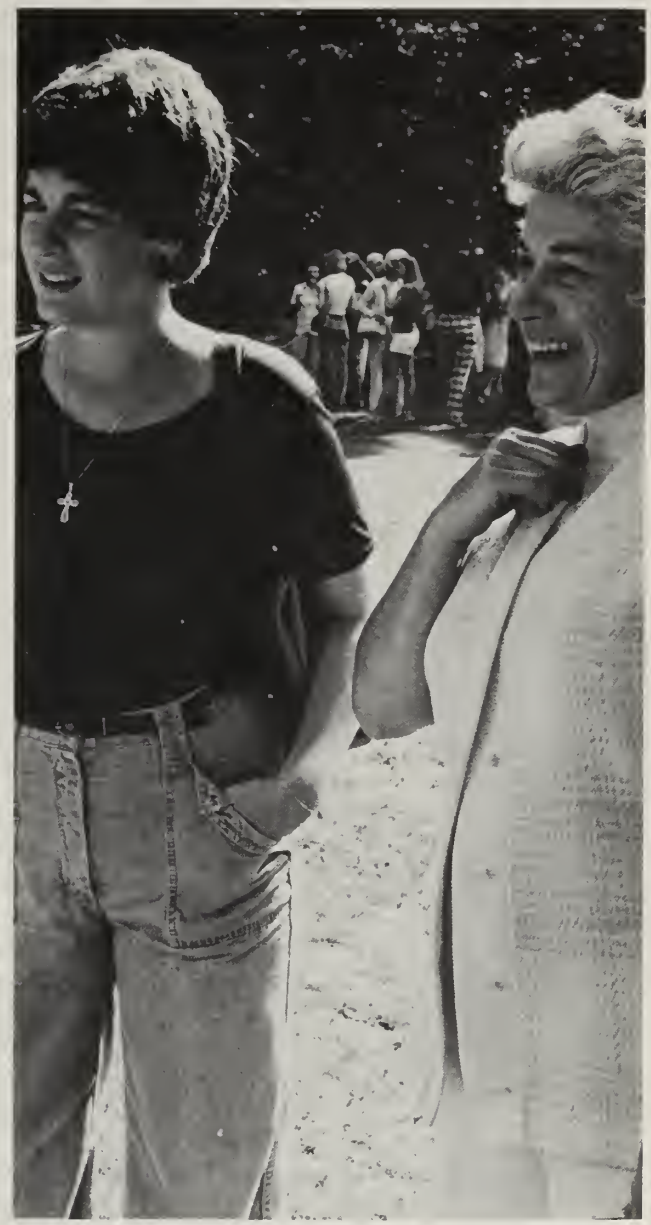
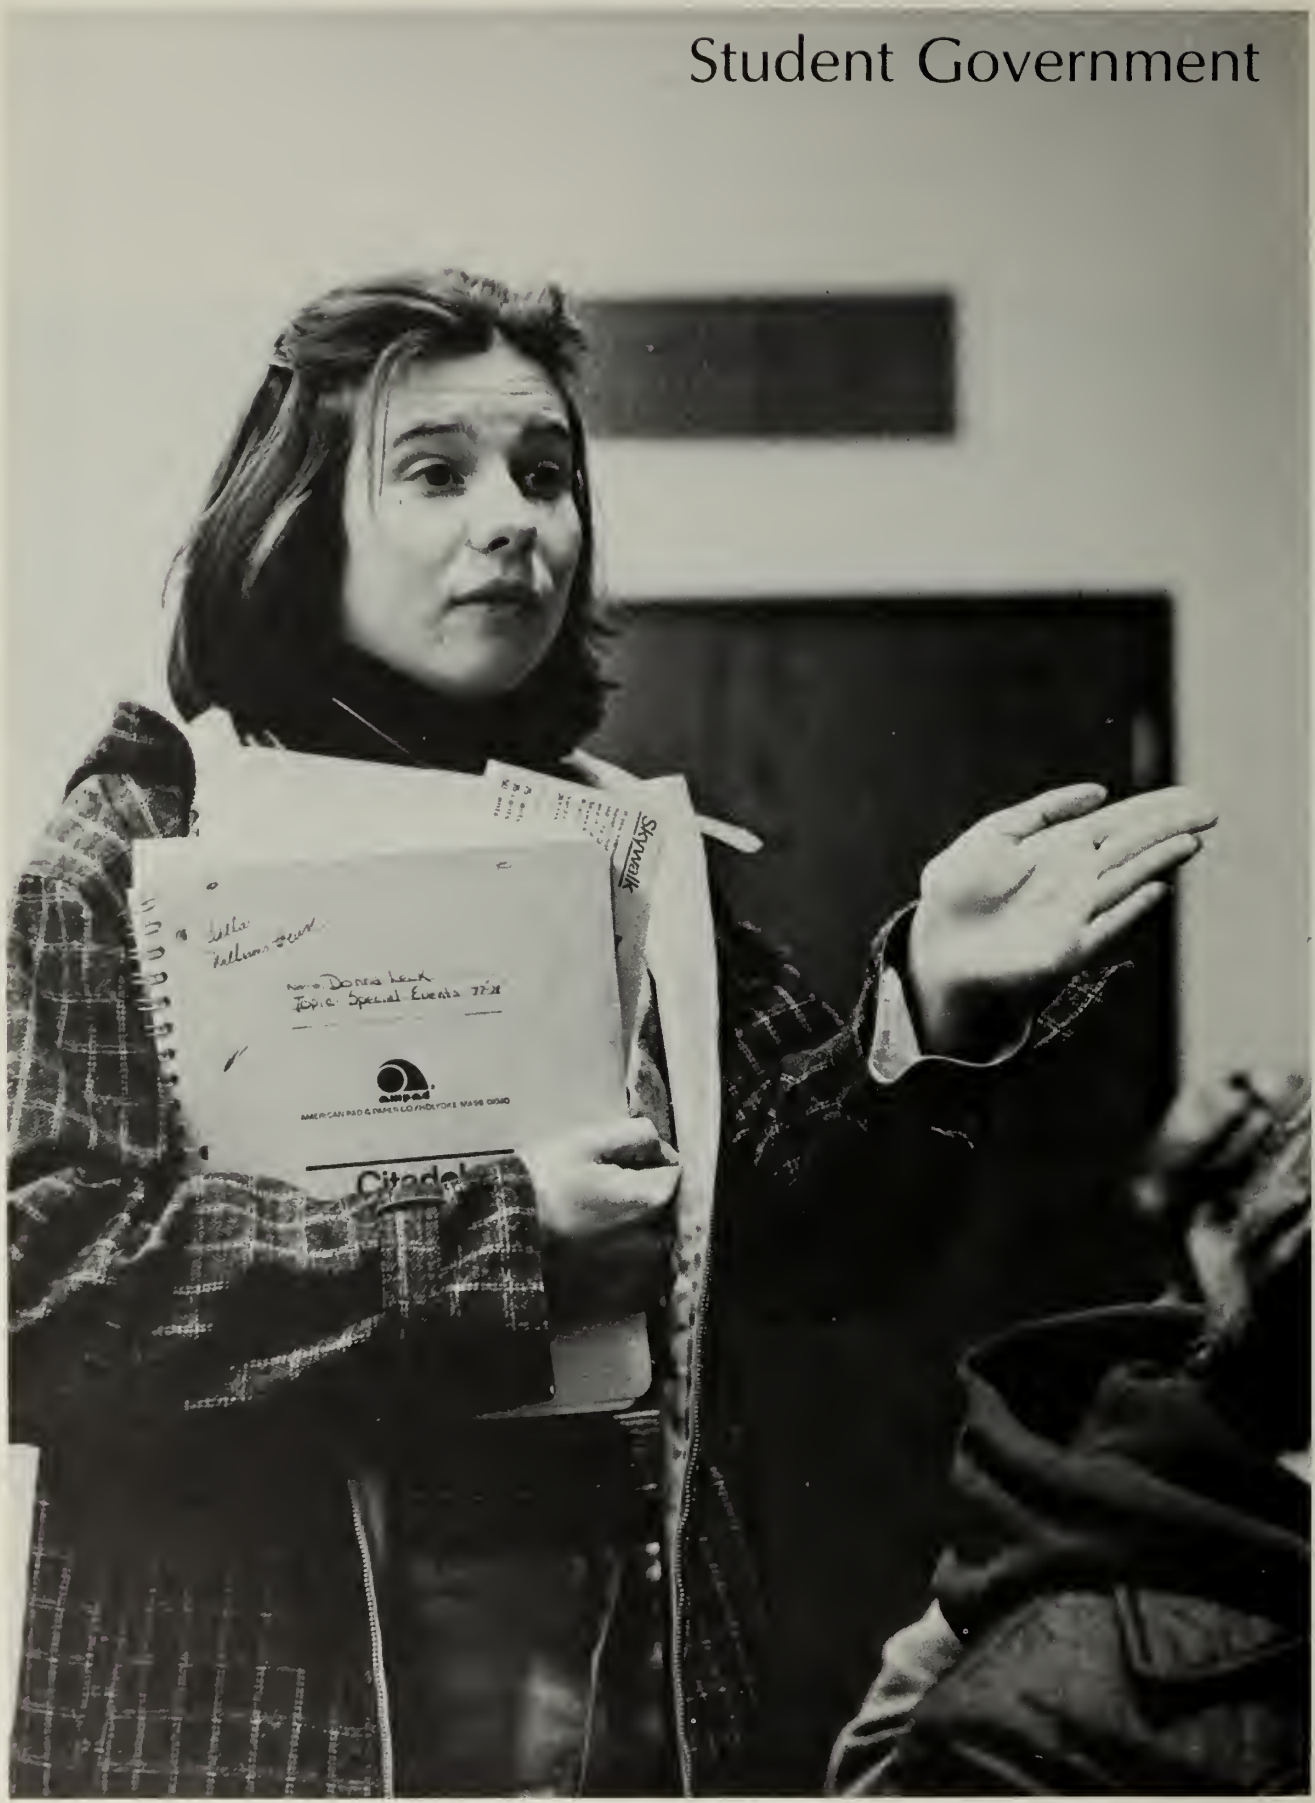
Activities

Registration



Student Government



The Student Government is to be used as a tool for the entire student body to encourage positive change here at Lasell. It cannot exist and remain effective without the constant support of the students.

It has been difficult to deal with student apathy in the Lasell community, but the members of Student Government felt apathy will always exist, and they would do their best to create interest in activities ranging from academics to social life.

Activities within the community are not the only concern of student government however. Student Government must deal with policy changes that effect our lives as students at Lasell. Several proposals were presented before the Board of Trustees, one of them being further communication between the trustees, faculty and the students through student and faculty representation on the board.

A lack of communication between the administrators of the college and the students has always been a major concern here at Lasell. Student Government felt this proposal would be beneficial in improving communication and have a positive effect on the entire Lasell community.

It is the Student Government's interest in the students and concern with their demands that make a student government effective and productive in achieving final goals. There are always a few devoted students that contribute to this goal, thus producing an active and dynamic student government. And it is these students that everyone learns to rely on for a positive attitude and a better utilization of resources at Lasell to make life for each student here more satisfying.

Lori Oliver
President
Lasell Student Government

LASELL LEAF

The Lasell Leaf is a monthly newspaper produced by a small but ambitious staff. It is a means by which students, faculty, and administration learns of the cultural and educational events on campus as well as interesting reading of original poems and short anecdotes.

Although the staff is limited, a feeling of satisfaction and accomplishment is always implied through the production of each and every issue.

Retailing Club

New York, City, Fashion shows, Hair and cosmetic demonstrations, banquets, international fair, wine and cheese parties, pumpkin selling and more. Its all been a part of an exciting year for the Retailing Club of 1977-1978.

The Retailing Club of Lasell considers itself one of the most active clubs on campus. We offer a variety of events for all to participate in. We plan and organize activities that are beneficial to those who are pursueing the challenging field of Retailing.

New York City was one of the highlights of the year. Keeping with the tradition of the clubs, Retailing students and faculty spent three days in April visiting such places as Glamour Magazine, J.C. Penny Company, Diane Von Furstenberg. Definitely where the action is.

The latest spring fasions for the season were presented by our Retailing students on April 1st. We modeled clothes ranging from gym shorts to evening dresses. Sponsoring the evening was Weathervane located in the Chestnut Hill Mall. The preparation and organizing that went into the show was handled by the students. The experience was a first time for many. We modeled, decorated, wrote commentary; a total group effort that made the evening a great success. Lynn Covello and Diane Kaplan were MC's and Beth Waterbury assisted.

"Diego at the Loft" and "Leons of Belmont", two well known hairdressers in the Boston area came to Lasell to cut and demonstrate hair care. Lasell students were volunteer victims of the demonstrations. It was a chance for all to see the latest in hair styles.

SENIOR WEEK

Senior Banquet

Barbara Long Guest Speaker

Torchlight Ceremony

What a memorable event. The traditional Torchlight ceremony started in the Central Street parking lot, with freshman carrying senior torches. Everyone marched to the Crow's Nest where the 1978-79 Student Government Officers were announced. A night to be remembered by all!

Picnic

Medical Assistants Pinning Ceremony

The Medical Assistant Program is graduating it's fourth class this year and is constantly in a state of change. At this time it is applying for accreditation. One of the requirements for this was to have a Medical Assisting Advisory Board. This consists of three physicians, the instructors involved in the program, the president of the Boston chapter of the American Association of Medical Assistants, and two student representatives.

The big event at the end of the year is the pinning ceremony which takes place the evening before graduation. At this time the seniors are presented their pins, which they will wear on their uniforms.

The Medical Assistant is trained to work in a doctor's office with both secretarial and clinical abilities. The experience is applied through a Field Externship in her senior year. After graduating there is then a certifing exam to be taken.

Linda Coleman
President

Lasell Nurse's Association — an active organization

The Lasell Student Nurse Association is a very active organization on campus. Officers are elected to establish a base of leadership within the group. The association supports and corresponds with a foster child throughout the year. Each year the Nurses' Association runs a Holiday Bazaar, raising funds for scholarships for the freshman summer program and funds for the senior class banquet. This years bazaar was an overwhelming success — in fact the proceeds this year were the largest in Lasell's history — a reflection of the dedication and hard work by the members of the freshman and senior classes, the faculty and many others! Traditionally each senior nursing student has a freshman little sister. In the early fall big sisters presented little sisters with their caps and shared in their excitement. In the spring both classes got together for a banquet and . . . whatever! A good time was had by all. Best wishes to the newly graduated nurses!
